## FROST PROOF

CABBAGE PLANTS IN ANY QUANTITY OUR  
SPECIALTY.

Early Jersey Wakefield. The Earliest Cabbage  
Grown.

READ OUR GUARANTEE.

## PIEDMONT PLANT CO.

Growers and Shippers of  
PLANTS THAT GROW.

ALBANY, GA. and GREENVILLE, S. C.

Write Your Name and Address Plainly.

## Suggestions to Customers

**NAME, ADDRESS, ETC.** We wish to impress upon you the importance of writing your name and full address plainly. If your express office is different from your post office be sure to give it. We receive orders every year with faulty addresses, which cause unnecessary delay.

**REMITTANCES.** You can send money safely by P. O. order, express order, bank draft, or check, and registered letter. Do not send stamps.

**CARE OF PLANTS.** As soon as your plants come, take them out of the crates and set them out. If your plants look yellow and dead, do not jump to the conclusion that they are worthless. FROST PROOF cabbage plants always look brown and tough and may look yellow after long shipment. Proper care and attention will bring them out, and they will make better cabbage than green, sappy plants.

**PACKING.** All plants are tied in bunches of 50. We make no charge for packing or packages above prices quoted. All plants are packed with best of care, and by expert help. We have shipped plants as far west as Colorado, and as far north as Massachusetts.

**TERMS.** Our terms are strictly cash with order. Positively no plants will be shipped C. O. D.

**NON-WARRANTY.** While we exercise great care to have our plants pure and reliable, we give no warranty, express or implied. We cannot be in any way responsible for the crop.

### OUR GUARANTEE.

As express and mail service is now back to normal conditions, we can guarantee this year to deliver plants to you promptly, and in good condition. While we always do all that we can to deliver the plants promptly, they are sometimes delayed in transit, or lost through no fault of ours.

If you do not hear from us within a few days after sending your order, write us, stating the date you sent your order and the amount. If your plants should not arrive in good order, pick out the good ones, and notify us of the shortage at once. We guarantee satisfaction.

All claims must be made within 30 days from date of order.

The above guarantee is your protection. With it you need have no fear in sending us your money. We have been shipping plants now for over 17 years. With a steadily growing list of satisfied customers. We strongly advise you to send your orders to an old established concern. For reference we can give the Georgia National Bank, Albany, Ga., the Bank of Commerce, Greenville, S. C., R. G. Dunn and Co., or Bradstreet, anywhere.

**Frost Proof Cabbage Plants Are 3 to 4 Weeks Earlier.**

# **FROST PROOF CABBAGE PLANTS**

## **FROST PROOF CABBAGE PLANTS.**

We make a specialty of growing HIGH GRADE Frost Proof Cabbage Plants. These plants are grown in the open field on our farms at Albany, Ga., and Greenville, S. C., and are therefore field hardened by frost and freezing weather. They are much superior to home grown plants, and can be set in the open six weeks earlier. They are frost proof to 20 degrees, and we have known them to withstand temperatures of 10 degrees above zero without injury. By using these plants you will get headed cabbage three to four weeks earlier, because frost proof cabbage plants get a much earlier start than home grown plants.

We grow all of our plants on our own farms from selected seed, and do not buy a plant that we sell. No second hand plants shipped. We therefore know exactly what we are shipping our customers.

The plants are pulled and carefully packed by expert help, so as to reach their destination in good shape. Different varieties are tagged so that our customers can separate different kinds. All plants are tied in bunches of 50. We can ship successfully to any part of the United States.

### **Varieties.**

#### **EARLY JERSEY WAKEFIELD.**

See Cover Illustration.

Many market gardeners consider this the very best cabbage in cultivation. Its merits are many, among which are large heads for an early variety, small outside foliage, and uniformity of crop. The heads are of medium size, and are white, solid and tender. This variety always brings a good price on the market on account of its earliness, thereby netting the grower larger returns.

Our strain of this variety is of the very best.

#### **CHARLESTON WAKEFIELD.**

This is a selection of the Early Jersey Wakefield, but makes a much larger head, and is a week or ten days later. Heads often weighing from five to ten pounds.

## Frost Proof Cabbage Plants Pay.

This is a very desirable variety for shipping purposes, as the heads are very solid and firm. A strong favorite with southern growers as a main crop.

### COPENHAGAN MARKET

This is the very earliest of the round headed varieties. Its chief features besides earliness are remarkable size, averaging 10 pounds, compactness, even maturity, and fine quality. Maturing at about the same time as the Early Jersey Wakefield, it produces larger heads than any other cabbage equally as early. The heads are very heavy in weight, ball shaped, solid and firm, with a small core and of fine texture and splendid quality.

### SUCCESSION.

One of the earliest of the flat-head varieties. A sure header and a very hardy grower, both in cold and hot weather. This variety is grown exclusively in the South and gives universal satisfaction.

A splendid kind for winter heading, in addition to the main crop. Heads are of uniform shape, not too flat and are very solid.

**Early Plants Mean Bigger Profits.**

**LARGE LATE FLAT DUTCH.**

This variety needs no recommendation because it is one of the oldest in cultivation. The heads are very solid, distinctly flattened on top, and of excellent quality. This is considered by many as the standard very large late cabbage for home garden and market.

**PRICES ON FROST PROOF CABBAGE PLANTS.**

500 for \$1.25; 1000 for \$2.25, postpaid.

By express, charges collect, \$1.50 per 1000; over 4000 at \$1.25 per 1000; over 9000 at \$1.00 per 1000.

**Please Note:**—We do not ship plants C. O. D. because it cost you more, and delays shipment. We advise you to have quantities over 1000 plants shipped by express if possible.

**ONION PLANTS**

We make a specialty of growing onion plants for the market. From long experience we find that they give much better satisfaction than sets. They will make larger and finer onions, stand cold weather better, and do not go to seed in the spring like sets. Therefore, we would strongly advise you to use plants instead of sets, whether for the market or home use. Our onion plants are grown from very best seed and will be found true to name.

**Variety: White Bermuda.**

Prices: 500 for \$1.25; 1000 for \$2.00. By express collect, \$1.50 per 1000.

## **LETTUCE PLANTS**

Land for lettuce should be very heavily manured and fertilized. Lay off the rows 18 inches apart, and set one foot apart in the row. If set in cold frame, they can be set 10 inches apart.

### **VARIETY.**

**Big Boston.** The best variety for winter and early heading. Price, \$1.50 per 1,000. Express collect. By mail postpaid, \$2.25 per 1000.

## **TOMATO PLANTS**

### **EARLY TOMATO PLANTS.**

We desire to call special attention to our early Tomato Plants. We strongly advise you to try a few of these plants for early setting. By setting our field grown plants early you will have ripe tomatoes on your table before your neighbors. We will have the plants ready March 25th, but you should not order until danger of frost is over, unless you are prepared to protect them. We pack them in damp moss to insure fresh delivery.

### **VARIETIES.**

**Earliana.** The Earliana is probably more largely grown for the early market than any other tomato, as it is grown almost exclusively in some of the large trucking sections of the South. It is a very handsome shape, quite solid, and of fine quality.

**Greater Baltimore.** This is a main crop variety, with large, smooth, well formed fruit, bright red in color. This tomato is a heavy cropper, and is a favorite for canning.

**Stone.** One heaviest and most solid of the large tomatoes of good quality. Fine for main crop and deservedly one of the most popular tomatoes for shipping, canning and home market. Of large size, bright scarlet color, and withstands rot and blight.

**Prices:**—100 for 50c; 500 for \$1.50; 1000 for \$2.50 postpaid. By express 1000 for \$1.75; over 4000 at \$1.50 per 1000.

# POTATO PLANTS

Our Potato Plants are grown from selected seed stock grown on our own farms. They are treated for all kinds of disease, and are government inspected. Our customers are therefore protected from the many kinds of potato plant diseases which are becoming so prevalent throughout the South.

All potato plant orders are booked and shipped in the order in which they are received. We advise you to place your order early, stating when you want them shipped. We advise you to have potato plants shipped by express.

## We Grow only one Variety: THE PORTO RICO.

In our opinion there is no potato that has so many good qualities as the Porto Rico, as it is from two to three weeks earlier than any other yam potato. Enormous yielders, strong and vigorous growers, withstanding drought better than any other potato. Eating qualities unsurpassed, flesh red and very sweet, as they contain a larger percentage of sugar than any other variety. It also has the combined qualities of being the heaviest yielder and best keeper of any potato of the yam family.

To the market gardener who is looking for a very early potato, that is a heavy yielder, and of fine quality we strongly recommend this potato, as we know it is a potato he can build up a good trade on and hold it, from the fact that when his customers once get a taste of this potato they will call for no other. Most potatoes when fresh dug are dry and insipid, but the Porto Rico is soft and sweet from the very start, and satisfies the most fastidious.

**PRICES:** 500 for \$1.50; 1000 for \$2.75 postpaid. By express, collect, \$2.00 per 1000; over 4000 at \$1.75 per 1000; over 9000 at \$1.50 per 1000.

**SPECIAL OFFER:** To those who send in their order for Potato Plants with remittance before April 1st, and allow us to book same, we will give a reduction of 10 per cent from the above prices. This enables us to handle orders to better advantage, and make shipment when customers desire. We suggest that you send in your order with your cabbage plant order.

Place Your Order Early.

# Strawberry Plants

The Strawberry is the queen of all small fruit, and is considered by many to be the most profitable, and no garden is complete without a bed of strawberries. The best strawberries are those that are grown in your own garden and picked fresh from the vines as you use them. They are delicious, and the joy of having nice fresh berries for your own table fully repays for the small effort required to plant and grow them. 500 to 1000 plants will produce sufficient berries for a large family and leave a good many to sell.

**VARIETIES:** Early: Excelsior, Missionary, Klondike, Lady Thompson, Dunlop. Late: Aroma, Gandy.

**PRICES:** 500 for \$3.50; 1000 for \$6.50, postpaid. By express collect, \$2.50 for 500; \$4.50 per 1000.

## FLOWER PLANTS

Beautify your home with a few flowers, it will be time and money well spent.

Large Mixed English Pansy Plants, ready Feb. 15. Price one dozen for 35c; two dozen for 65 cents. 50 for \$1.20, 100 for 2.00 postpaid.

Salvia. No plant in the South is more popular than the Salvia, as in late summer and fall up until the time of frost, it is a mass of scarlet bloom, which is most attractive, and unequalled by any other flower. Ready April 20th. Price: one dozen for 50c, two dozen for 90 cents, 50 for \$1.50, 100 for \$2.50, postpaid.

# Beet Plants

By setting our beet plants you will get them on the table three weeks ahead of those grown from seed. They should be set out in the latter part of February or in the first part of March. Manure and fertilize the land heavily, and set out in rows two feet apart. Set four to five inches in the row.

**VARIETIES:** Early Eclipse and Crosby's Egyptian.  
**Price:** 100 for 40c; 500 for \$1.50 postpaid. By express \$1.50 per 1000.

## \$100. IN GOLD Given away in Prizes

Because we believe that our plants are better than average plants, we are offering Prizes in Gold, according to the scale below, for the six largest cabbage heads of each variety grown from our plants. This offer is open to everybody, the only condition is that the heads must be grown from our plants. Each contestant must furnish signed affidavits by disinterested parties before a notary as to the total weight of the six heads.

### The Prizes

For six largest heads of	If 500 Plants are ordered	If 1000 Plants are ordered	If 5000 Plants are ordered
Early Jersey and Charleston Wakefield	-\$5.00	\$10.00	\$25.00
Copenhagen Market	5.00	10.00	25.00
Succession	5.00	10.00	25.00
Flat Dutch	5.00	10.00	25.00

If you grow the six largest heads, and have ordered 500 plants from us, you will win \$5.00; if you have ordered 1000 plants you will win \$10.00; if you have ordered 5000 plants you will win \$25.00. This applies to each variety of cabbage named above.

#### RULES OF CONTEST.

1. The cabbage heads must be grown from our plants by the contestant.
2. Each contestant must furnish signed affidavits by disinterested parties before a notary, as to the total weight of the six heads, and proof that they were grown by the contestant, and as to the variety.
3. Prizes will be awarded according to the scale above. All contestants must have their affidavits in by July 1st.

# They Stood the Test.

---

Friendship, Tenn., Oct. 24, 1921.

Piedmont Plant Co.

Dear Sirs: Inclosed find picture of myself standing in my cabbage patch, that I grew from your plants. I ordered the plants last January and set them out February 1st. Everybody said they would freeze out, and it snowed and sleeted and froze, BUT THEY STOOD THE TEST.

This picture was made May 1st. As you can see I have a three pound cabbage in my hand cut from my patch. I can truthfully say that your plants are strictly Frostproof. I will order more plants from you in January.

Yours truly,

S. J. JONES.
